Over the years, Deirdre has supported a full range of students from all age groups and educational settings. She draws on her wealth of experience to successfully pair students with expert tutors best suited to meet their individual learning styles and goals. She continues to tutor students in both classroom math and in preparation for the ACT and SAT tests. She cherishes the strong relationships tutoring allows her to develop with her students and particularly treasures the opportunity to help struggling students gain confidence as they begin to experience success.

TESTIMONIALS

I want to thank you for providing Brian with such a wonderful tutor. Kelly was extremely patient, knowledgeable and accommodating. Your service is tops on my list for any other help that I might need in the future.

I wanted to let you know how pleased Virginia and I were with the rapid response and extraordinary results we experienced in just six lessons. Virginia's SAT scores jumped an amazing 170 points which is just what she needed to qualify for a scholarship at one of her top choice schools. We will recommend you to anyone who might be considering SAT prep. We were truly impressed with your services on every level.

Beth got an A on her final. She was thrilled! Her confidence and psyche are in a great place and we can't thank you enough.

Marlene really came through for Quinn. I appreciated her style. She was very focused on what he needed to learn. She was able to teach a very reluctant and discouraged learner! A true teacher teaches the student who struggles!

I must tell you Alex is outstanding! Matthew loved him and ended up getting a B in Calculus, which is terrific.

Elisa is wonderful and perfect for Sam. He feels that he has learned more from her this summer than he learned all last year. Thank you for introducing Sam to her.

Great job! Charles got a 770 on his SAT History test so he couldn't be more pleased.

OUR MISSION

Our students are our very first priority and are the reason we're here. We are devoted to academic excellence and committed to helping each student reach their full potential. We have experience with students of all ages, learning styles and levels and have extensive knowledge of areas schools and curricula. Let our expertise help your child succeed!

OUR TUTORS

Our tutors are experienced educators with expertise in their field, compassion for their students and a commitment to fostering academic success.

We consider the goals, learning styles and needs of each individual to insure the best tutor-student pairing.

Tutors build self-confidence, demystify course content and impart effective study skills which bring success now and into the future.
