

SOLVING THE TEST PREP PUZZLE

A Workshop for Rising High School Juniors

PARTICIPANTS WILL ADDRESS THE QUESTIONS:

-  Which test will best represent my strengths, the ACT or the SAT?
-  When should I start preparing for the test?
-  How long will I need to prepare?
-  Should I take SAT Subject tests?

This week long course will provide an overview of standardized test options, including the ACT, the SAT I and the Subject tests. It will address specific test content, format and strategies to assist each student in determining the best standardized test plan. By identifying each student's unique strengths and weaknesses, this workshop will provide participants with a starting point from which to launch their preparation.

Days 1 & 2: Demystify the Tests

Differences between the tests will be discussed, including question types, scoring, content and test specific strategies. Strategies for mastering multiple choice questions, including estimating and guessing, pacing, and calculator use will be presented. Students will look at sample questions from all sections of both tests.

Days 3 & 4: Take the Tests

Test specific instructions will be reviewed briefly prior to the administration of actual full-length SAT & ACT practice tests.

Day 5: Individual Meeting with Director

Participants may schedule this one-on-one meeting with Director, Deirdre Zangwill, at their convenience. Students will review and compare test results and develop a timeline for continued preparation. Parents are encouraged to attend.

2014 Dates

To Be Announced

Individual sessions may also be scheduled at your student's convenience.

Time

3 hour sessions

Morning, Afternoon & Evening Sessions

Location

Haverford Office
410 Lancaster Ave.
